

INTRODUCING THE Knight 4'x4' FFU

The Keystone Knight is the ideal way to save on costs, labor and complexity when designing your cleanroom. For use in semiconductor, pharmaceutical, EV battery, aerospace and manufacturing facilities.

KEY BENEFITS

REDUCE COSTS & MAINTENANCE

Fewer units reduce first costs, maintenance and downtime.

REDUCE FIELD LABOR

Fewer electrical and ductwork connections.

INCREASE CAPACITY

Greater airflow than two 24" x 48" units combined.

FEATURES

HIGH CAPACITY AIRFLOW

Delivers up to 2,000 CFM for demanding applications.

HIGH EFFICIENCY

EC motor and backward curved wheel provides superior performance.

MODBUS NETWORK CONTROL

Simplifies system integration.

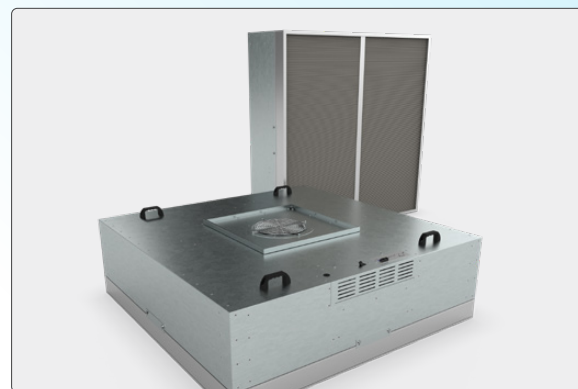

HEPA AND ULPA FILTER OPTIONS

Delivers advanced particle control.

OPTIONAL TOP-MOUNTED PRE-FILTER

Extends final filter life and reduces maintenance.
